DETAILED ACTION

1. Applicant's election without traverse of Group I (claim 74), canceled claims 75-93 and added claims 94-138 in the reply filed on 10/6/2006 is acknowledged.

Claims 74 and 94-138 are pending in this Office Action.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claim 74 is drawn to accepting a search terms, which is classified in class 707, subclass 6.

II. Claims 94-138 are drawn to producing a plurality of refinement options by in servers after user's selection, which is classified in claim 707, subclass 10.

3. Inventions I, II, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, accepting a search terms in invention I is used in matching attribute-value pairs for the search term. Producing a plurality of refinement options by in servers after user's selection in invention III is used to providing the materials or combined refinement options. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2162

5. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
